"HE SAID WE'RE TOO FRAGILE A SPECIES TO ADAPT TO A CHANGING WORLD WITHOUT HUMAN INTERVENTION... SO I ATE HIM."

By Henry Payne, The Detroit News, for USA TODAY
Welcome!

Thank you for coming
Common Sources of Federal Greenhouse Gas Emissions

SCOPE 1:
Greenhouse gas emissions from sources that are owned or controlled by a Federal agency.

SCOPE 2:
Greenhouse gas emissions resulting from the generation of electricity, heat, or steam purchased by a Federal agency.

SCOPE 3:
Greenhouse gas emissions from sources not owned or directly controlled by a Federal agency but related to agency activities, such as vendor supply chains, delivery services, and employee travel and commuting.
Desired Outcomes

Share ideas/resources
Increase knowledge
Identify opportunities
Create an action plan
Sustainability

Used Nametags
Transportation
Coffee and Water Bottles
Electronic Copies
Earth Week

Earth Day, April 22
You are Critical...

To the success of this week
To the implementation of the plan
To a healthy future
Desired Outcomes

- Sharing of ideas and resources
- Increased knowledge and ownership
- Creation of a basic Climate Action Plan for every unit, and for the GYA as a whole
- Allocation of $35,000 toward coordinated implementation
- Identification of “next steps” and needs
- Build relationships among the “doers and shakers” of agency operations in the ecosystem
- Fun and rewarding experience
